PROFILE

My name is Arlan. I'm an outstanding frontend developer with incredible learning skills and the ability to solve problems without giving up. My goal as a developer is to apply my technical skills in IT development and troubleshooting to realize the vision and mission of the company. I strive to bring success to the company by developing optimal algorithms and approaches that will solve the problems that usually arise in front-end development. My first-class knowledge in the field of application development in JS is very useful to meet the technical requirements of the company. I am a team player, open to adapting to changes. With that said, can assure you that I can be a useful talent for the company
